

Medical Technologist (MLS / MT) 1.0 Core Lab – Renton WA

Great News! Kaiser Permanente is seeking a full-time (1.0) Medical Technologist (MLS / MT) to join our amazing Core Lab team in Renton! This is a full-time, evening position working 5pm to 1:30am, Monday-Friday, so no weekends in this position, as well!

This position is based at Kaiser Permanente Washington's **FANTASTIC** new laboratory in Renton, WA! This new laboratory has state-of-the-art equipment and has large windows, creating a wonderful atmosphere for our Laboratory teammates! Tired of paying for monthly parking? Plenty of space available so no fee for parking, as well!

Kaiser Permanente Washington, headquartered in Seattle, Washington, provides and coordinates complete health care services for more than 650,000 members through 26 medical centers. Founded in 1947, Kaiser Permanente Washington existed for nearly 70 years as Group Health Cooperative, a regional nonprofit which gained national recognition for medical quality, disease prevention, and evidence-based treatments. Kaiser Permanente welcomed Group Health, its medical centers and members, into the Kaiser Permanente family in 2017 creating Kaiser Permanente's eighth region. Kaiser Permanente of Washington is a total health organization comprising Kaiser Foundation Health Plan of Washington, and the Washington Permanente Medical Group, P.C., formerly Group Health Physicians, an independent medical group that features more than 1,000 physicians.

Job Description:

- The MLS/MT performs pre-analytic, analytic, and post analytic phases of laboratory testing procedures from waived to moderate and high complexity testing.
- The MLS/MT recognizes appropriate and inappropriate selection of lab tests and correlates lab results to patients' clinical condition.
- S/he possess scientific knowledge to evaluate quality control, instrument, and result data.
- Other duties include: responsibility for documentation of all activities, monitoring supplies; compliance with all regulatory and accreditation requirements related to safety and laboratory testing; face to face and telephone customer service; computer data entry and retrieval; workplace cleanliness and maintenance.
- May oversee QA activities, method evaluation, teaching, point-of-care testing, and new procedure implementation. May research new methods.
